

Two-hour Results Engagement
We are confident that our first encounter with stakeholders will uncover the main opportunities to improve aspects of your operations and space. PAECE will host a two-hour results engagement with all your important stakeholders, which is more than enough time to show the value of working on with our integrated team.

PAECE Event
The PAECE Event is a one-to-three day workshop (depending on scope) that dives deeply into process, operational, safety, and waste. PAECE then delivers a comprehensive report of findings, observations, and recommendations.

Design Project
PAECE can also implement many of the recommendations from your PAECE Event Report. Our teams of technical, creative, and business specialists can create and build the systems used in your plant, the tools, that help make your business better.

Levels of engagement

WHAT DOES THE PAECE PROCESS DO?

- ADDS OVER TIME & CAPACITY
- REDUCES ENERGY CONSUMPTION
- CHANGES A "THROW AWAY" ENVIRONMENT
- ENCOURAGES COLLABORATION
- SUPPORTS REGULAR AND STUDY ACTIVITIES

Here's how.
